

# HIE InContext App v2.36.0 – External Release Notes

---

Our latest version of the HIE InContext app (**v.2.36.0**) has been deployed to test. See the testing guide below for details. All screenshots of the application in these notes display fictional patient data.

Test Environment Date for this Release – **6/8/23**

Production Date for this Release – **6/26/23**

Items included in the release		Affected HIE(s)
New Features	<a href="#">‘Hide Home Facility’ Data Filter added to Structured Documents</a>	CRISP-MD, CRISP-DC, WVHIN, CONNIE, and HEC-AK
	<a href="#">Displaying Reported Medications parsed from CCDs</a>	CRISP-MD
Updates	<a href="#">Updates to Captured Medications subtab</a>	CRISP-DC, WVHIN, CONNIE, and HEC-AK
	<a href="#">Patient Demographics added to Header of Health Records Dialog Boxes</a>	CRISP-MD, CRISP-DC, WVHIN, CONNIE, and HEC-AK

Other updates included in this release:

- User Settings – a popup window asking the user to save or cancel changes will appear if the user navigates away from the user settings tab without saving their changes.

## Testing Guide

Please take a few moments to make sure that the app is launching as expected in your non-prod environment.

- Launch to [testincontext.crisphealth.org](https://testincontext.crisphealth.org) OR access the **Clinical Information** tile of the staging HIE portal.

*Test Patients*

First	Last	DOB	Gender
Anna	Cadence	11/16/1981	Female
Gilbert	Grape	1/1/1984	Male

## 'Hide Home Facility' Data Filter added to Structured Documents

**Affected HIEs:** CRISP-MD, CRISP-DC, WVHIN, CONNIE, and HEC-AK

**Prior to this release:** The Structured Documents subtab did not contain a 'Hide Home Facility Data' filter.

**For this release:** The 'Hide Home Facility Data' filter is available within the Structured Documents subtab. Home Facility Data is any data delivered to the HIE directly from the organization (or an organization within the hierarchy) associated with the user's InContext or Portal account. The Structured Document subtab is located within the Clinical Data tab. The filter will be on by default.

Users can click the filter icon and select the check box next to 'Hide Home Facility Data' to add/remove this filter. A grey 'Hide Home Facility Data' text box will appear above the data table to indicate that this filter is applied or not on the data table.

The screenshot shows the ANNA CADENCE HIE InContext interface. The top navigation bar includes 'HEALTH RECORDS', 'ENCOUNTERS', 'PROBLEMS', 'STRUCTURED DOCUMENTS', and 'IMMUNIZATIONS'. The 'STRUCTURED DOCUMENTS' subtab is active, and the 'Structured Documents' title is highlighted with a red box. A search bar and a filter icon (three horizontal lines) are visible in the top right of the subtab, with the filter icon also highlighted by a red box. Below the subtab title, there is a 'Hide Home Facility Data' filter toggle, which is currently turned on. A table of structured documents is displayed with columns for Date, Source, and Title. A filters menu is open on the right side of the screen, showing various filter options: Date (From), Date (To), Source, Title, Type, and Size (KB). The 'Hide Home Facility Data' filter is checked and highlighted with a red box. A red arrow points from the filter icon in the subtab to the 'Hide Home Facility Data' checkbox in the filters menu. At the bottom of the screen, there is a pagination control showing 'Rows per page: 25' and '1-12 of 12'.

Date	Source	Title

—	Parkview Medical Group	Continuity of Care Document

# Displaying Reported Medications parsed from CCDs

## Affected HIEs: CRISP-MD

**Prior to this release:** The Medication Management tab did not contain Reported Medications from CCDs in Maryland.

**For this release:** A new tab titled 'Reported Medications' will be added to the Medication Management section of the InContext/Clinical Information Service Application. Reported Medications provides the patient's medication data received from Consolidated Clinical Documents (CCDs) sent to the HIE. The 'Reported Medications' tab contains a data table with the following fields: Generic Name, Medication Name, Dose, Sig, Provider, Start Date, and Last Reported Date. Medications will be displayed in a 90-day view as well as a full historical lookback.

A 'definitions of key terms' button has been added to the side of the table and can be clicked to expand.

**Please Note:** Reported Medications data is sourced from electronic medical records shared with CRISP. This is not necessarily all prescribed medications and may not reflect a patient's complete medication list.

The screenshot shows the InContext Medication Management interface for patient ANNA CADENCE, Female, born Nov 16, 1981. The 'Reported Medications' tab is active, displaying a table of medication data. The table includes columns for Generic Name, Medication Name, Dose, Sig, Provider, Start Date, and Last Reported Date. A 'Definitions of Key Terms' pop-up is visible on the right side of the table.

Generic Name	Medication Name	Dose	Sig	Provider	Start Date	Last Reported Date
diazepam (DIASSTAT ACUDIAL) 5-7.5-10 mg rectal kit	diazepam (DIASSTAT ACUDIAL) 5-7.5-10 mg rectal kit	5mg	Place 5 mg rectally once as needed for Seizures Motor seizures greater than 5 minutes	—	2022-04-07	2022-04-26
furosemide 100 MG oral tablet	furosemide 100 MG oral tablet	100MG	   = 1 tab. Oral, BID, # 180 tab, 1 Refill(s), Pharmacy: WALGREENS DRUG STORE #19560, TAKE 1 TABLET BY MOUTH TWICE DAILY; 183, 02/22/22 16:15:00 EST; Height/Length Measured, cm, 97.069, 09/10/21 13:18:00 EDT; Clinical Weight, kg	—	2022-06-09	2022-06-09
levETIRAcetam (KEPPRA) 100 mg/mL solution	levETIRAcetam (KEPPRA) 100 mg/mL solution	350mg	Take 3.5 mLs (350 mg) by mouth 2 (two) times daily	—	2022-02-11	2022-04-26
polyethylene glycol (MIRALAX) 17 gram/dose powder	polyethylene glycol (MIRALAX) 17 gram/dose powder	8.5g	Take 8.5 g by mouth daily	—	—	—

**Definitions of Key Terms**

- Provider:** The provider reported in the medications record
- Start Date:** Start date present on EMR
- Last Reported Date:** Most recent date on record received by the HIE

## Updates to Captured Medications subtab

**Affected HIEs:** CRISP-DC, WVHIN, CONNIE, and HEC-AK

**For this release:** The Captured Medications tab the Medication Management section of the InContext/Clinical Information Service Application has been renamed Reported Medications. Additionally, the disclaimer language has been updated (highlighted in the screenshot below), the disclaimer button has been removed, and the following column name changed.

- Prescriber, change to Provider
- Capture Date, change to Last Reported Date

**HIE InContext** ANNA CADENCE  
Female | Nov 16, 1981

ADVISORIES PDMP **REPORTED MEDICATIONS**

LAST 90 DAYS ALL
