

InContext v.2.51 Release Notes

Deployment Date: Tues., Sept. 3

Upcoming Changes	HIEs impacted
Dispensed Meds Tab for Connie	Connie
Add DC Provider Directory SSO Within Apps	CRISP DC, CRISP MD

Dispensed Meds Tab for Connie | New tab under Medication Management for our Connie HIE. The feature flag to enable as pharmacy data becomes available to display for all medications in CT.

Add DC Provider Directory (Caremesh) SSO Within Apps | We are adding the functionality of Provider Directory search for our SSO users found in the screenshot below. Currently, DC users can only access Provider Directory through the patient search of InContext. SSO users launching to a patient cannot currently view the directory.

For any questions regarding this InContext release, please contact Tony Contreras (tony.contreras@crisphealth.org) or Arjun Sharma (arjun.sharma@crisphealth.org).
