Updated Interface Design

Affected HIEs: FDOH, Healthix

Prior to this release: The FL DOH and Healthix dashboards had a different user interface. The previous design contained more white space and menu items across the main patient information banner.

For this release: Patient information is now collected in two different layouts available by the subtab menu.

Previous Interface:

The screenshot shows a patient profile for 'Red Amy' (Female, Apr 1, 1966, 731 58th street, Brooklyn, AE 11220). Below the profile is a subtab menu with 'ENCOUNTERS', 'HEALTH RECORDS', and 'CLINICAL NOTES'. The 'ENCOUNTERS' subtab is active, displaying a table of encounters.
